

MAZZELLA®

OVERHEAD CRANE PROJECTS

VEHICLE MAINTENANCE

Boom trucks use dual pick for maintenance.

REBAR DISTRIBUTION

Single leg gantry with outdoor options.

MULTI-USE FACILITY

Underhung cranes for side-by-side production lines.

MAINTENANCE FACILITY

Single leg gantry design eliminates column line on open side of the building.

FOUNDRY

Hot metal melt crane with thermal protections.

BOAT MANUFACTURING FACILITY

Cranes and hoists operating in tandem through a single radio control with crane A/B and hoist 1/2/3/4 selector switches.

BOAT MANUFACTURING

Pneumatic crane for flammable environment.

MARINE MAMMAL REHABILITATION

Galvanized monorail crane with sun shade for outdoor marine environment.

BOAT SALES YARD

Dual hoist monorail for placing / removing vessels on / off of trailers.

BOAT LIFT

Hoists pick boats out of the water and onto their trailer.

HARD SURFACE DISTRIBUTION

Trussed-style bridge for extremely long span.

GENERAL MANUFACTURING

Multiple crane system with latted columns and longitudinal A-Frames

MANUFACTURING FACILITY

Side-by-side cranes with common center columns.

HEAVY MACHINE MAINTENANCE

Double girder crane with all variable frequency drive (VFD) motions set to match existing 50-year old crane's speeds.

CONCRETE GOODS DISTRIBUTION

Double girder cranes lift in tandem, wall-sliding jib crane as auxiliary.

AIRPORT MAINTENANCE

Underhung crane used for aircraft maintenance.

STEEL STAMPING PLANT

Integrated below-the-hook coil lifter for coil storage.

DRIVE THROUGH LOADING BAYS

Three cranes on common runway system for dual and triple pick of long products.

GLASS FABRICATOR

Workstation cranes with “nested trolley”.

REBAR FACILITY

Dual hoist crane system with a 3-point spreader bar for long loads.

SLIP RING

Allows vacuum lift to spin freely without tangling cords.

THREE-POINT PICK

Typical three-point pick for vessels.

TARPING STATION

Crane used for covering loads on flatbeds.

PAPER PRODUCTS MANUFACTURER

Log line maintenance crane system.

CONCRETE PRODUCTS MANUFACTURER

Outdoor crane system for storage and loading onto flatbeds.

HEAT TRANSFER SYSTEMS MANUFACTURING

Top running, double girder cranes with auxiliary hook.

DOUBLE GIRDER CRANE INSTALLATION

Heavy, long span double girder crane installation using a “tri-lifter”.
